ITEM 9. REGULATION FD DISCLOSURE.

On June 20, 2001, Stephen W. Naeve, Executive Vice President and Chief Financial Officer of Reliant Resources, Inc. (Reliant Resources) reiterated previously made earnings per share estimates. These estimates were made on June 13, 2001 as disclosed in Reliant Resources' Current Report on Form 8K dated June 13, 2001. Mr. Naeve reiterated that a reasonable range of diluted earnings per share for 2001 on a pro forma basis for Reliant Resources would be between \$1.60 and \$1.70 per share with a compound annual growth rate of 25%. Mr. Naeve stated that the previously made estimates were conservative and that management remains confident that the estimates will be achieved or exceeded.

The information in this report is being furnished, not filed, pursuant to regulation FD. Accordingly, the information in this report will not be incorporated by reference into any registration statement filed by Reliant Energy under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated therein by reference. Forward-looking statements involve a number of risks and uncertainties, and actual results may differ materially from the results discussed in the forward-looking statements.

The following are some of the factors that could cause actual results to differ materially from those expressed or implied in Reliant Energy's forward-looking statements:

- o state, federal and international legislative and regulatory developments, including deregulation, re-regulation and restructuring of the electric utility industry, and changes in, or application of environmental and other laws and regulations to which Reliant Energy is subject,

- o the effects of competition, including the extent and timing of the entry of additional competitors in Reliant Energy's markets,
- o industrial, commercial and residential growth in Reliant Energy's service territories,
- o Reliant Energy's pursuit of potential business strategies, including acquisitions or dispositions of assets or the development of additional power generation facilities,

- o state, federal and other rate regulations in the United States and in foreign countries in which Reliant Energy operates or into which it might expand its operations,
- o the timing and extent of changes in commodity prices and interest rates,
- o weather variations and other natural phenomena,
- o political, legal and economic conditions and developments in the United States and in foreign countries in which Reliant Energy operates or into which it might expand its operations, including the effects of fluctuations in foreign currency exchange rates,
- o financial market conditions and the results of Reliant Energy's financing efforts,
- o the performance of Reliant Energy's projects and the success of its efforts to invest in and develop new opportunities, and
- o other factors Reliant Energy discusses in this and its other filings with the Securities and Exchange Commission.
