**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Participants and Plan Administrator of the CenterPoint Energy Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the CenterPoint Energy Savings Plan (Plan) as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

**1. Description of the Plan**

The following description of the CenterPoint Energy Savings Plan (Plan) provides only general information. Participants (as defined below) should refer to the Plan document for a more complete description of the Plan's provisions. In the case of any discrepancy between this summary and the Plan document, the Plan document will govern.

**(a) General**

The Plan is a defined contribution plan established in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2009, the Plan is a "safe harbor" 401(k) plan under the IRC, which means it is deemed to satisfy certain deferral and contribution testing requirements.

Participants include all employees of CenterPoint Energy, Inc. (Company or CenterPoint Energy) and those subsidiaries and affiliates of the Company that have adopted the Plan except (a) employees covered by a collective bargaining agreement unless such agreement provides for participation in the Plan, (b) leased employees, (c) independent contractors or (d) non-resident aliens who receive no United States sourced income (Participants).

**(b) Contributions**

Participants may contribute, on a pre-tax and after-tax basis, up to 50% and 16% of eligible compensation, respectively, not to exceed the Internal Revenue Service (IRS) compensation limit as defined in the Plan. Active Participants age 50 or over may contribute an additional pre-tax contribution not to exceed the IRS limit (\$5,500 for 2012); however, the Company generally does not provide the match on such "catch-up" contributions, unless a matching contribution is required to meet the safe harbor plan provisions under the IRC. Participants may also contribute amounts representing rollover eligible distributions from other defined benefit or defined contribution plans, IRC Section 403(b) annuity plans, IRC Section 457 governmental plans or conduit Individual Retirement Accounts that have been holding a distribution from a qualified plan. Participants direct their contributions into the various eligible investment options offered by the Plan.

All new employees are automatically enrolled in the Plan to make pre-tax contributions. An employee who has been automatically enrolled is deemed to have elected to defer pre-tax contributions (Automatic Contribution). The initial pre-tax contribution is three percent of the employee's eligible compensation on a payroll-period basis. The contribution percentage is increased by an increment of one percent on April 1 in each of the following years until it reaches six percent of compensation on a payroll-period basis.

A notice is provided to all employees who have been automatically enrolled in the Plan (Automatic Enrollment Notice). In general, an employee has 30 days after receiving the Automatic Enrollment Notice to elect not to make any pre-tax contributions or choose a different contribution percentage.

Contributions, including all related employer matching contributions, made under the Automatic Contribution provision of the Plan are invested in the default investment fund as defined in the Plan. Employees may elect to change the Automatic Contribution percentage and/or direct the contributions to any of the investment options offered under the Plan at any time after the commencement of the Automatic Contribution. The Company matches 100% of the first six percent of eligible compensation.

Participants may elect to invest all or a portion of their contributions to the Plan in the Company Common Stock Fund. In addition, Participants may elect to have dividends paid on their investment in the Company Common Stock Fund either reinvested in the Company Common Stock Fund or paid to them in cash, and they can transfer all or part of their investment in the Company Common Stock Fund to the other investment options offered by the Plan. Employer contributions are made in the form of cash and are invested in accordance with Participant elections.

Contributions are subject to certain limitations as set forth under the IRC or the limits set forth in the Plan document.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

**(c) Investment Options**

The Plan offered the following investment funds (Funds) as of December 31, 2012:

- Balanced Fund
- Company Common Stock Fund
- Fixed Income Fund
- International Equity Fund
- Large Company Growth Fund
- Large Company Value Fund
- S&P 500 Index Fund
- Small Company Fund
- Stable Value Fund
- Vanguard Target Retirement Income Fund
- Vanguard Target Retirement 2010 Fund
- Vanguard Target Retirement 2015 Fund
- Vanguard Target Retirement 2020 Fund
- Vanguard Target Retirement 2025 Fund
- Vanguard Target Retirement 2030 Fund
- Vanguard Target Retirement 2035 Fund
- Vanguard Target Retirement 2040 Fund
- Vanguard Target Retirement 2045 Fund
- Vanguard Target Retirement 2050 Fund
- Vanguard Target Retirement 2055 Fund

Upon enrollment in the Plan, Participants may direct contributions, in one percent increments, in any of the investment options. Participants should refer to the Plan prospectus for a detailed description of each Fund.

**(d) Participant Accounts**

Individual accounts are maintained for each Participant. Each Participant's account is credited with the Participant's contributions and with allocations of the Company contributions and Plan earnings. Each Participant's account is also charged with an allocation of administrative expenses. Allocations are based on Participant account balances. A Participant is entitled to their vested account balance.

**(e) Vesting and Forfeitures**

Participants are immediately fully vested in all contributions and actual earnings thereon. As a result, there are no forfeitures.

**(f) Notes Receivable From Participants**

A Participant may borrow against their vested account balance. The maximum amount that a Participant may borrow is the lesser of (a) \$50,000, reduced by the excess, if any, of the highest outstanding balance of loans to the Participant from all plans maintained by the Company or an affiliated entity during the one-year period ending on the day before the date on which such loan is made, over the outstanding balance of loans from the Plan on the date on which such loan is made or (b) 50% of the value of the Participant's vested account balance under the Plan.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

The loans are secured by the pledge of a portion of the Participant's right, title and value of the Participant's vested account balance under the Plan as determined immediately after the loans are made. The minimum loan amount is \$500. Loans may be repaid over a period of up to five years and are subject to a \$50 origination fee. Interest rates are fixed at the prime rate listed in The Wall Street Journal for the first of each month in which the loan is requested plus one percent. Loan transactions are treated as a transfer to (from) the investment fund from (to) notes receivable from participants.

**(g) Payment of Benefits**

Upon termination of employment, a Participant whose account exceeds \$1,000 may elect, upon written request at any time, to receive a distribution in a single lump-sum payment or fixed monthly, quarterly, semi-annual or annual installments over a period of ten years or less. Such distributions are generally paid in the form of cash; however, if the Participant has investments in the Company Common Stock Fund, the Participant may elect an in-kind distribution of the Participant's account balance in the Company Common Stock Fund.

Generally, to the extent a Participant has not requested a distribution by the time he or she reaches age 70 1/2, required minimum distributions will be made consistent with the terms and conditions of the Plan and the requirements of the IRC. Immediate lump-sum distributions are made for accounts which do not exceed \$1,000.

A Participant who is under age 59 1/2 may make a withdrawal from amounts attributable to after-tax contributions and, if applicable, rollover contributions in the Plan and associated earnings. If a Participant who is under age 59 1/2 and has less than five years of service withdraws matched after-tax contributions, the Participant will be suspended from Plan participation for six months. A Participant who is age 59 1/2 or older may make unlimited withdrawals from pre-tax contributions, after-tax contributions, vested portion of prior Plan accounts, rollover account and any associated earnings.

Effective April 29, 2011, the Plan was amended to allow active participants under age 59 1/2 to apply for a "hardship" withdrawal from amounts attributable to the pre-tax contributions (not including any earnings and gains thereon) in accordance with Plan provisions. Participants are not permitted to make any pre-tax or after-tax contributions for a period of six months immediately following a hardship withdrawal.

**(h) Administration**

The assets of the Plan are held in trust by The Northern Trust Company (Trustee). Aon Hewitt is the recordkeeper for the Plan. The Benefits Committee of CenterPoint Energy, Inc. (Committee), appointed by the Board of Directors of the Company, is the Plan Administrator (Plan Administrator). The Committee retains an independent investment consultant to provide investment advice with respect to the Funds other than the Company Common Stock Fund.

**(i) Termination of the Plan**

Although it has not expressed any intent to do so, the Company may terminate the Plan at any time subject to the provisions of ERISA and must give written notice to the Trustee.

**2. Summary of Accounting Policies**

**(a) Basis of Accounting and Use of Estimates**

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America, referred to as GAAP. The preparation of the Plan financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

**(b) New Accounting Standards**

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. This ASU requires entities, for Level 3 fair value measurements, to disclose quantitative information about unobservable inputs, a description of the valuation processes, and a qualitative discussion about the sensitivities of the measurements. The guidance is effective for interim and annual periods beginning after December 15, 2011. The adoption of the new accounting guidance did not have any effect on the changes in net assets or the financial position of the Plan.

**(c) Investment Valuation and Income Recognition**

The investments in all Funds of the Plan are reported at fair value. Fair value is the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments are reflected at fair value in the financial statements, except for fully benefit-responsive investment contracts which are stated at contract value. Security transactions are recorded as of the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined contribution plan are required to be reported at fair value; however, contract value is the relevant measurement attributed for that portion of the net assets available for benefits, because it represents the amount Participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

**(d) Notes Receivable From Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan. Interest income on notes receivable from participants is recorded when it is earned.

**(e) Payment of Benefits**

Benefits are recorded when paid.

**(f) Plan Expenses**

Direct Plan expenses such as trustee, recordkeeping, auditing and investment management fees and certain general administrative expenses are paid from the Plan assets. These expenses are shown as a separate component in the Statement of Changes in Net Assets Available for Plan Benefits. Plan expenses other than the aforementioned items are included as a component of investment gains and losses and reported on Schedule C of Form 5500 as indirect compensation.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

**3. Fair Value Measurements**

FASB *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures* establishes a framework for measuring fair value as it relates to financial assets and liabilities and to non-financial assets and liabilities measured at fair value on a recurring basis. That framework provides a three-level valuation hierarchy based upon observable and unobservable inputs, with preference given to observable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1      Inputs are unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2      Inputs, other than quoted prices included in Level 1, are observable either directly or indirectly. Level 2 inputs include quoted prices for similar instruments in active markets, and inputs other than quoted prices that are observable for the assets or liabilities; and
- Level 3      Inputs are unobservable for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. Unobservable inputs reflect the Plan's judgments about the assumptions market participants would use in pricing the asset or liability since limited market data exists. Unobservable inputs are based on the best information available in the circumstances, which might include the Plan's own data.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Common stocks	Valued at the closing price reported on the active market in which the individual securities are traded.
Mutual funds	Valued at the net asset value of shares held by the Plan. The share value is based on the market quoted price at the end of the day.
Common or collective trust funds	Valued at the net asset value of units held by the Plan, and generally, include the use of significant observable inputs in determining the unit value.
Guaranteed investment contracts	Valued at fair value by discounting the related future payments based on current yields of similar instruments with comparable duration considering the credit worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

(1) Represents the guaranteed investment contracts held by the Stable Value Fund.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2012 and 2011:

	<u>December 31,</u>	
	<u>2012</u>	<u>2011</u>
	<u>Guaranteed investment contract</u>	
Balance, beginning of year	\$ 12,983,893	\$ 12,754,398
Unrealized gains/(losses) related to instruments Still held at the reporting date	(323,979)	229,495
Balance, end of year	<u>\$ 12,659,914</u>	<u>\$ 12,983,893</u>
The amount of total gains or losses for the period attributable to the changes in unrealized gains or losses relating to assets still held at the reporting period	<u>\$ (323,979)</u>	<u>\$ 229,495</u>

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

***Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements***

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

<u>Instrument</u>	<u>Fair Value</u>	<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range of Significant Input Values</u>	<u>Weighted Average</u>
Guaranteed investment contract	\$12,659,914	Discounted Cash Flow	Swap Yield Rates Duration Payout Date Payout Percentage	0.89% 0.79 10/15/2013 100%	0.89%

Wellington Small Cap Opportunities Portfolio <sup>(11)</sup>	12,255,727	—	Daily	(19)

<sup>(1)</sup> The fund is composed of high-grade money market instruments with short maturities. The objective is to provide an investment vehicle for cash reserves while offering a competitive rate of return. The fund uses high quality securities with the emphasis on providing liquidity for redemption of units on any business day while preserving the principal. Within quality, maturity and sector diversification guidelines, investments are made in those securities with the most attractive yields.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

- <sup>(2)</sup> This fund seeks to match the performance of the S&P 500 Index by investing in stocks that make up the index. The S&P 500 Index is an unmanaged, market-weighted index that consists of the 500 largest publicly traded companies and is considered representative of the broad U.S. stock market.
- <sup>(3)</sup> The investment objective is to track the performance of the Russell 1000 Growth Index by investing in a diversified sample of stocks that make up the index which is comprised of the large-cap growth segment of the U.S. equities with higher price-to-book value ratios and higher forecasted growth values.
- <sup>(4)</sup> The investment objective is to track the performance of the Russell 1000 Value Index by investing in a diversified sample of stocks that make up the index which is comprised of the large-cap value segment of the U.S. equities with lower price-to-book value ratios and lower forecasted growth values.
- <sup>(5)</sup> The investment objective is to track the performance of the Russell 2000 Index by investing in a diversified sample of stocks that make up the index which is comprised of the 2000 smallest companies in the Russell 3000 Index.
- <sup>(6)</sup> The investment objective is to track the performance of the Morgan Stanley Capital International All Country World Ex-U.S. Index (“MSCI ACWI Ex-US”) by investing in a diversified sample of stocks that make up the index which is comprised of stocks representing approximately 44 country stock markets, excluding the U.S. market while including Canada and the emerging markets.
- <sup>(7)</sup> These are the short to mid-term fixed income investments of the Stable Value Fund with preservation of principal as the primary investment objective (see Note 5 for information on the Stable Value Fund).
- <sup>(8)</sup> The investment objective is to track the performance of the Barclays Capital U.S. Aggregate Bond Index by investing in a representative portfolio that matches the industry allocation, quality and duration of such index.
- <sup>(9)</sup> The investment objective is to seek long-term capital appreciation by investing in a diversified portfolio of international equities that is benchmarked against the Morgan Stanley Capital International Europe, Australasia, and Far East Index.
- <sup>(10)</sup> These funds invest in funds with a mix of common stocks and fixed income securities using an asset allocation strategy that will become more conservative over time.
- <sup>(11)</sup> The investment objective is to seek long-term (more than five years) total return in excess of the Russell 2000 Index by focusing on stock selection through bottom-up analysis.
- <sup>(12)</sup> A redemption resulting from the aggregate daily activities of Participants generally requires same-day notice. A redemption initiated by the plan sponsor requires up to three business days’ notice, depending on the applicable fund. Redemption is generally settled in cash on the business day following the redemption date but may be settled in kind three business days following the redemption date.
- <sup>(13)</sup> Dwight Asset Management Company LLC must provide at least five business days’ notice of redemption. Redemption is generally settled within thirty days of the redemption date and may be settled in kind.
- <sup>(14)</sup> Dwight Asset Management Company LLC must provide at least one business day notice of redemption. Redemption is generally settled on the redemption date.
- <sup>(15)</sup> Same-day notice is generally permitted for a redemption resulting from the aggregate daily activities of Participants and a redemption initiated by the Committee. Redemption is generally settled on the business day following the redemption date and may be settled in kind.
- <sup>(16)</sup> Dwight Asset Management Company LLC must provide at least five business days’ notice of redemption. Redemption is settled within ten business days of the redemption date and may be settled in kind.
- <sup>(17)</sup> The plan sponsor must provide at least five business days’ notice of redemption. Redemption is generally settled within ten business days of the redemption date and may be settled in kind. Redemption may be limited to a maximum of the greater of \$2,000,000 or five percent of the value of the assets in the Thornburg International Equity Fund.
- <sup>(18)</sup> Redemption resulting from the aggregate daily activities of Participants generally requires same-day notice and settles on the business day following the redemption date. Redemption initiated by the plan sponsor generally requires same-day notice and settles as soon as practicable and may be settled in kind.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

- (19) *The plan sponsor must provide at least ten business days' notice of redemption. A longer notice period may be required. Redemption is settled within a reasonable time following the redemption date and may be settled in kind.*
- (20) *Dwight Asset Management Company LLC was required to provide at least one year notice of redemption. Redemption would have been settled on the redemption date and could have been settled in kind.*

**5. Investments**

The following investments represent five percent or more of the Plan's net assets available for benefits.

	<u>December 31,</u>	
	<u>2012</u>	<u>2011</u>
Company Common Stock, 19,494,130 and 19,732,131 shares, respectively	\$375,262,002	\$396,418,512
BlackRock Equity Index Fund, 7,911,444 and 8,192,926 shares, respectively	189,479,075	169,101,992
PIMCO Total Return Fund, 13,910,139 and 11,913,675 shares, respectively	156,349,959	129,501,651

The Plan has significant holdings of Company common stock. As a result, the values of the Plan's investments may be materially impacted by the changes in the fair value of this security.

During 2012 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Common or collective trust funds	\$ 83,198,016
Mutual funds	33,460,264
Common stocks	(12,579,223)
Total investment appreciation	<u>\$104,079,057</u>

**Stable Value Fund**

The Stable Value Fund utilizes synthetic guaranteed investment contracts (Synthetic GICs). A Synthetic GIC includes a wrap contract issued by an insurance company or other financial institution and a portfolio of fixed income assets that are owned by the Stable Value Fund. The wrap contract provides that realized and unrealized gains and losses on the assets covered by the wrap contract are not reflected immediately in the net assets of the Stable Value Fund, but rather are amortized over the duration of the assets or other agreed upon period, through adjustments to the future interest crediting rates. The wrap contract provides a guarantee that all qualified participant withdrawals will occur at contract value which represents contributions made under the contract, plus earnings, less withdrawals made under the contract and administrative expenses.

The crediting rates for Synthetic GICs are reset periodically and are based on the market value of the portfolio of assets covered by the contracts.

During 2012 and 2011, the average yields for the Stable Value Fund were as follows:

	<u>2012</u>	<u>2011</u>
Based on actual earnings	0.96%	1.26%
Based on the interest rate credited to Participants	1.68%	1.55%

Wrap contracts provide that withdrawals associated with certain events not in the ordinary course of fund operations may be paid at market rather than contract value. Examples of such circumstances may include significant plan design changes, complete or partial plan terminations, severance programs, early retirement programs, the closing or sale of a subsidiary, bankruptcy of the plan sponsor or the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of the above events that would limit the Plan's ability to conduct transactions with Participants at contract value is probable.

**CENTERPOINT ENERGY SAVINGS PLAN**  
**Notes to Financial Statements**  
**December 31, 2012 and 2011**

**6. Risks and Uncertainties**

The Plan provides for investments in Company common stock, commingled and mutual funds and other investments. Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and Participant account balances. Rates of return will vary, and returns will depend on the market value of the Plan's investments.

**7. Tax Status**

The IRS has determined and informed the Company by letter dated April 2, 2001 that the Plan is qualified and the trust fund established is tax-exempt under the appropriate sections of the IRC. Although the Plan has been amended and restated since receiving the determination letter, the Plan Administrator and the Plan sponsor's counsel believe these amendments have not adversely affected the Plan's qualified status and the related trust's tax-exempt status as of the financial statement date.

Generally accepted accounting principles require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, respectively, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is generally no longer subject to income tax examinations for years prior to 2009.

**8. Related Party Transactions**

During 2012, the Plan purchased and sold shares of the Company's common stock and units of short-term investment funds managed by the Trustee as temporary investments (party-in-interest transactions) as shown below:

Purchases	Company Common Stock	\$192,723,407
	Northern Trust Collective Short Term Investment Fund	652,276,101
Sales	Company Common Stock	\$197,755,171
	Northern Trust Collective Short Term Investment Fund	661,420,020

**9. Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation of Net Assets Available for Benefits per the financial statements to Form 5500:

	2012	2011
Net Assets Available for Benefits per the financial statements	\$1,744,242,917	\$1,623,616,786
Adjustment from contract value to fair value for fully benefit-responsive contracts	6,119,652	4,118,283
Net Assets Available for Benefits per Form 5500	<u>\$1,750,362,569</u>	<u>\$1,627,735,069</u>

The following is a reconciliation of the Increase in Net Assets Available for Benefits per the financial statements to Form 5500 for the year ended December 31, 2012:

Increase in Net Assets Available for Benefits per the financial statements	\$120,626,131
Adjustment to reverse fair value adjustment for fully benefit-responsive contracts related to prior year	(4,118,283)
Adjustment from contract value to fair value for fully benefit-responsive contracts	6,119,652
Increase in Net Assets Available for Benefits per Form 5500	<u>\$122,627,500</u>
