## CenterPoint Energy reports second quarter 2014 earnings of \$0.25 per diluted share

- Utility performance in-line with expectations despite milder weather
- \$1.4 billion annual capital investment program on track
- Continued robust customer growth
- Reaffirms 2014 Utility Operations guidance of \$0.72 to \$0.76 and increases full year consolidated guidance to \$1.14 to \$1.21

**Houston, TX – August 6, 2014** - [CenterPoint Energy, Inc.](#) (NYSE: CNP) today reported net income of \$107 million, or \$0.25 per diluted share, for the second quarter of 2014, compared to a net loss of \$100 million, or \$0.23 per diluted share the previous year. Second quarter 2013 results included two unusual items related to the May 1, 2013, formation of the midstream partnership: (i) a \$225 million, non-cash deferred tax charge and (ii) \$10 million of partnership formation expenses. Excluding these items, the second quarter 2013 net income would have been \$131 million, or \$0.30 per diluted share.

Operating income for the second quarter and for the six months ended June 30, 2014 was \$186 million and \$481 million, respectively. Following the May 1, 2013, formation of Enable Midstream Partners, CenterPoint Energy reports its investment in midstream operations as equity income rather than operating income. As a result, operating income for the second quarter of 2014 is not comparable to prior results.

“I am pleased with our company’s strong operating and financial performance for the quarter despite milder weather,” said Scott M. Prochazka, president and chief executive officer of CenterPoint Energy. “We continue to execute our strategy focused on robust organic utility capital investment which supports the strong growth in our service territories, enhanced system reliability and ongoing system upgrades, positioning us well for future earnings growth.”

For the six months ended June 30, 2014, net income was \$292 million, or \$0.68 per diluted share. This compares to net income of \$47 million, or \$0.11 per diluted share, for the same period of 2013. Excluding the two unusual items noted above, net income would have been \$279 million, or \$0.65 per diluted share.

-more-

## **Electric Transmission & Distribution**

The electric transmission & distribution segment reported operating income of \$145 million for the second quarter of 2014, consisting of \$115 million from the regulated utility operations (TDU) and \$30 million related to securitization bonds. Operating income for the second quarter of 2013 was \$165 million, consisting of \$131 million from the TDU and \$34 million related to securitization bonds.

Second quarter 2014 operating income for the TDU benefited from higher revenues associated with continued strong customer growth. This increase was more than offset by milder weather, higher operating and maintenance expenses and higher depreciation expense.

Operating income for the six months ended June 30, 2014, was \$250 million, consisting of \$190 million from the TDU and \$60 million related to securitization bonds. Operating income for the same period of 2013 was \$249 million, consisting of \$180 million from the TDU and \$69 million related to securitization bonds.

## **Natural Gas Distribution**

The natural gas distribution segment reported operating income of \$30 million for the second quarter of 2014, compared to \$25 million for the same period of 2013. Second quarter 2014 operating income benefited from higher revenues associated with rate changes, colder than normal weather and increased economic activity across its footprint, including customer growth. These revenue improvements were partially offset by higher operating and maintenance expenses, depreciation and taxes.

Operating income for the six months ended June 30, 2014, was \$192 million, compared to \$164 million for the same period of 2013.

## **Energy Services**

The energy services segment reported operating income of \$11 million for the second quarter of 2014, compared to \$3 million for the same period of 2013. Second quarter 2014 operating income included a mark-to-market gain of \$6 million, the same amount as last year. The increase in operating income was due to improved margins, decreased fixed transportation costs and basis volatility early in the quarter due to an extended winter.

Operating income for the six months ended June 30, 2014, was \$37 million, compared to \$10 million for the same period of 2013.

## **Midstream Investments**

For the second quarter of 2014, CenterPoint Energy reported equity income of \$71 million. See Enable Midstream's earnings press release issued on August 5, 2014, for detailed results of operations.

-more-

## Dividend Declaration

On July 24, 2014, CenterPoint Energy's board of directors declared a regular quarterly cash dividend of \$0.2375 per share of common stock payable on September 10, 2014, to shareholders of record as of the close of business on August 15, 2014.

## Guidance for 2014

CenterPoint Energy reaffirmed its earnings estimate for 2014 Utility Operations to be in the range of \$0.72 to \$0.76 per diluted share. The Utility Operations guidance range considers performance to date and significant variables that may impact earnings, such as weather, regulatory and judicial proceedings, throughput, commodity prices, effective tax rates, and financing activities. In providing this guidance, the company does not include the impact of any changes in accounting standards, any impact to earnings from the change in the value of Time Warner stocks and the related ZENS securities, or the timing effects of mark-to-market accounting in the company's energy services business.

The company revised its 2014 earnings estimate from Midstream Investments to be in the range of \$0.42 to \$0.45 per diluted share. In providing guidance, the company takes into account Enable's most recent public forecast, effective tax rates, the amortization of our basis difference in Enable and other factors.

On a consolidated basis, CenterPoint Energy increased its earnings estimate for 2014 on a guidance basis to be in the range of \$1.14 to \$1.21 per diluted share.

## Filing of Form 10-Q for CenterPoint Energy, Inc.

Today, CenterPoint Energy, Inc. filed with the Securities and Exchange Commission (SEC) its Quarterly Report on Form 10-Q for the period ended June 30, 2014. A copy of that report is available on the company's website, under the [Investors section](#). Other filings the company makes with the SEC and other documents relating to its corporate governance can also be found on that site.

## Webcast of Earnings Conference Call

CenterPoint Energy's management will host an earnings conference call on Wednesday, August 6, 2014, at 10:30 a.m. Central time or 11:30 a.m. Eastern time. Interested parties may listen to a live audio broadcast of the conference call on the company's website under the [Investors section](#). A replay of the call can be accessed approximately two hours after the completion of the call and will be archived on the website for at least one year.

CenterPoint Energy, Inc., headquartered in Houston, Texas, is a domestic energy delivery company that includes electric transmission & distribution, natural gas distribution and energy services operations. The company serves more than five million metered customers primarily in Arkansas, Louisiana, Minnesota, Mississippi, Oklahoma, and Texas. The company also owns a 55.4 percent limited partner interest in Enable Midstream Partners, a publicly traded master limited partnership it jointly controls with OGE Energy Corp., which owns, operates and develops natural gas and crude oil infrastructure assets. With more than 8,500 employees, CenterPoint Energy and its predecessor companies have been in business for more than 140 years. For more information, visit the website at [www.CenterPointEnergy.com](http://www.CenterPointEnergy.com).

Investors and others should note that we may announce material information using SEC filings, press releases, public conference calls, webcasts and the Investors page of our website. In the future, we will continue to use these channels to distribute material information about the company and to communicate important information about the company, key personnel, corporate initiatives, regulatory updates and other matters. Information that we post on our website could be deemed material; therefore, we encourage investors, the media, our customers, business partners and others interested in our company to review the information we post on our website.

This news release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual events and results may differ materially from those expressed or implied by these forward-looking statements. Any statements in this news release regarding future earnings, and future financial performance and results of operations, and any other statements that are not historical facts are forward-looking statements. Each forward-looking statement contained in this news release speaks only as of the date of this release. Factors that could affect actual results include (1) state and federal legislative and regulatory actions or developments affecting various aspects of CenterPoint Energy's businesses (including the businesses of Enable Midstream Partners (Enable)), including, among others, energy deregulation or re-regulation, pipeline integrity and safety, health care reform, financial reform, tax legislation, and actions regarding the rates charged by CenterPoint Energy's regulated businesses; (2) state and federal legislative and regulatory actions or developments relating to the environment, including those related to global climate change; (3) timely and appropriate rate actions that allow recovery of costs and a reasonable return on investment; (4) the timing and outcome of any audits, disputes or other proceedings related to taxes; (5) problems with construction, implementation of necessary technology or other issues with respect to major capital projects that result in delays or in cost overruns that cannot be recouped in rates; (6) industrial, commercial and residential growth in CenterPoint Energy's service territories and changes in market demand, including the effects of energy efficiency measures and demographic patterns; (7) the timing and extent of changes in commodity prices, particularly natural gas and natural gas liquids, and the effects of geographic and seasonal commodity price differentials; (8) weather variations and other natural phenomena, including the impact on operations and capital from severe weather events; (9) any direct or indirect effects on CenterPoint Energy's facilities, operations and financial condition resulting from terrorism, cyber-attacks, data security breaches or other attempts to disrupt its businesses or the businesses of third parties, or other catastrophic events; (10) the impact of unplanned facility outages; (11) timely and appropriate regulatory actions allowing securitization or other recovery of costs associated with any future hurricanes or natural disasters; (12) changes in interest rates or rates of inflation; (13) commercial bank and financial market conditions, CenterPoint Energy's access to capital, the cost of such capital, and the results of its financing and refinancing efforts, including availability of funds in the debt capital markets; (14) actions by credit rating agencies; (15) effectiveness of CenterPoint Energy's risk management activities; (16) inability of various counterparties to meet their obligations; (17) non-payment for services due to financial distress of CenterPoint Energy's customers; (18) the ability of GenOn Energy, Inc. (formerly known as RRI Energy, Inc.), a wholly owned subsidiary of NRG Energy, Inc., and its subsidiaries to satisfy their obligations to CenterPoint Energy and its subsidiaries; (19) the ability of retail electric providers, and particularly the largest customers of the TDU, to satisfy their obligations to CenterPoint Energy and its subsidiaries; (20) the outcome of litigation brought by or against CenterPoint Energy or its subsidiaries; (21) CenterPoint Energy's ability to control costs; (22) the investment performance of pension and postretirement benefit

-more-

plans; (23) potential business strategies, including restructurings, joint ventures, and acquisitions or dispositions of assets or businesses, for which no assurance can be given that they will be completed or will provide the anticipated benefits to CenterPoint Energy; (24) acquisition and merger activities involving CenterPoint Energy or its competitors; (25) future economic conditions in regional and national markets and their effects on sales, prices and costs; (26) the performance of Enable, the amount of cash distributions CenterPoint Energy receives from Enable, and the value of its interest in Enable, and factors that may have a material impact on such performance, cash distributions and value, including certain of the factors specified above and: (A) the integration of the operations of the businesses contributed to Enable; (B) the achievement of anticipated operational and commercial synergies and expected growth opportunities, and the successful implementation of Enable's business plan; (C) competitive conditions in the midstream industry, and actions taken by Enable's customers and competitors, including the extent and timing of the entry of additional competition in the markets served by Enable; (D) the timing and extent of changes in the supply of natural gas and associated commodity prices, particularly natural gas and natural gas liquids, the competitive effects of the available pipeline capacity in the regions served by Enable, and the effects of geographic and seasonal commodity price differentials, including the effects of these circumstances on re-contracting available capacity on Enable's interstate pipelines; (E) the demand for natural gas, NGLs and transportation and storage services; (F) changes in tax status; (G) access to growth capital; and (H) the availability and prices of raw materials for current and future construction projects; and (27) other factors discussed in CenterPoint Energy's Annual Report on Form 10-K for the fiscal year ended December 31, 2013, as well as in CenterPoint Energy's Quarterly Report on Form 10-Q for the quarter ended March 31, 2014, and June 30, 2014, and other reports CenterPoint Energy or its subsidiaries may file from time to time with the Securities and Exchange Commission.
