The administrator will make cash investments in our common stock beginning on the next investment date that is at least two business days after the administrator receives the funds and instructions. Cash investment funds, pending investment, will be credited to a participant’s account and held in an account that is separated from the administrator’s other funds. Cash investments not invested for a participant within 30 days of receipt will be promptly returned to the participant. **No interest will be paid on amounts held by the administrator pending investment.** If a participant does not designate the level of reinvestment of cash dividends on shares of our common stock purchased by an initial cash investment or an additional cash investment, then such participant shall be treated as having elected to have 100% of the cash dividends paid on such shares of our common stock reinvested in our common stock until the administrator receives written instructions from such participant designating the level of reinvestment.

All cash investments received by the administrator are irrevocable and considered final.

Cash Investment Procedures

Cash investments may be made by check or automatic deduction from predesignated bank accounts, as described below. Participants should **never send cash** for an investment.

Investment by Check. Cash investments may be made by personal check or money order payable in U.S. dollars to CenterPoint Energy, Inc. Investor’s Choice Plan and mailed to the administrator. Initial cash investments should be accompanied by enrollment forms while additional cash investments should be accompanied by the stub attached to each statement of account or transaction advice sent to participants.

Automatic Investing. Participants may make automatic monthly or quarterly investments of a specified amount, not less than \$50 per purchase nor more than \$120,000 per calendar year, by electronic automatic transfer of funds from a predesignated bank, savings or credit union account.

To initiate automatic deductions, a participant must execute an enrollment form that is available from the administrator and return it to the administrator (or via the administrator’s website), along with a voided check or deposit slip on the bank account from which funds are to be drawn. If the monthly investment option is chosen, automatic investing will begin on or about the 10th day of each month approximately 30 days after receipt of the authorization form. If the quarterly investment option is chosen, investments will begin on or about the 10th day of each March, June, September and December. In either case, automatic investing deductions will be made two business days before the investment date. **A participant’s bank may charge the participant a returned check fee if the designated bank or savings account does not have sufficient funds to cover the authorized deduction.**

Participants may change the amount of their automatic investment by notifying the administrator in writing or by facsimile of the new amount, and the change will take place approximately two weeks after the notice is received. Similarly, a participant may cancel automatic investing by instructing the administrator in writing or by facsimile. Cancellation will be effective approximately two weeks after the notice is received. To change a designated bank account, a participant must notify the administrator in writing at least 30 days before the change is to take effect and supply a voided check or deposit slip for the new account.

All cash investments are subject to collection by the administrator for full face value in U.S. funds. The method of delivery of any cash investment is at the election and risk of the investor and will be deemed received when actually received by the administrator.

Investment Dates

The plan's "investment dates" occur at least once every five business days. However, purchases will be made every business day when deemed practicable by the administrator. A participant's cash investment will generally be invested within five business days of receipt. For exceptions under specified circumstances involving open market purchases, see "Source and Price of Shares" below.

Dividend Payment Options

The plan requires that participants reinvest a minimum of 10% of cash dividends paid on each share of our common stock held in the plan in our common stock. With respect to cash dividends on shares of our common stock for which partial reinvestment is elected, the plan offers the option of direct deposit or check payment, as described below.

Reinvestment of Cash Dividends. Participants are required to reinvest a minimum of 10% and may reinvest up to 100% of the cash dividends paid on each share of our common stock held (or to be held) in the plan by making the election on their initial enrollment forms or by delivering written or facsimile instructions to the administrator. Participants electing partial reinvestment of cash dividends must designate the specific percentage of cash dividends to be reinvested for each share of common stock held in the plan by such participant, which specified percentage is referred to as the partial reinvestment percentage. If a participant that has elected partial reinvestment does not specify the partial reinvestment percentage, then such participant shall be treated as having elected to have 100% of the cash dividends paid on each share of our common stock held by such participant in the plan reinvested in our common stock until the administrator receives written instructions from such participant designating the partial reinvestment percentage. If a participant does not designate the level of reinvestment of cash dividends on shares of our common stock purchased by an initial cash investment or an additional cash investment or deposited in the plan for safekeeping, then such participant shall be treated as having elected to have 100% of the cash dividends paid on such shares of our common stock reinvested in our common stock until the administrator receives written instructions from such participant designating the level of reinvestment. The amount reinvested will be reduced by any amount required to be withheld under any applicable tax or other statutes. Cash dividends not being reinvested will be sent to the participant by direct deposit or check, as appropriate.

A participant may change such participant's prior reinvestment election from time to time by delivering a new enrollment form or written or facsimile instructions to the administrator. To be effective for a particular dividend payment, the administrator must receive instructions of such change at least five business days before the record date of the dividend. The record date for common stock dividends is usually between the 14th through 16th day of each February, May, August and November.

Dividends will be invested beginning either on the date of payment, if the payment date is an investment date, or on the first investment date following payment. Dividends not invested within 30 days of receipt will be returned promptly to the participant. Funds pending investment will be credited to a participant's account and held in an account at the administrator. **No interest will be paid on funds held by the administrator pending investment.**

Direct Deposit of Dividends on Common Stock. Through the plan's direct deposit feature, a participant may elect to have any cash dividends on common stock not designated for reinvestment automatically deposited into a designated bank or savings account. The cash dividends will be deposited on the dividend payment date. Participants who wish to have dividends automatically deposited must execute a direct deposit authorization form that is available from the administrator and send it to the administrator, along with a voided check or deposit slip for the designated bank account.

The administrator must receive direct deposit authorization at least 30 days before an applicable common stock dividend payment date to be effective for that payment date. Participants can cancel direct deposit of

[Table of Contents](#)

dividends by notifying the administrator in writing or by facsimile. In order to be effective for an applicable dividend payment date, the administrator must receive the cancellation notice at least 30 days before that dividend payment date. To change a designated bank account for direct deposit of dividends, the administrator must receive written notice, accompanied by a voided check or deposit slip for the new bank account, at least 30 days before an applicable dividend payment date.

Check Payments of Dividends. Cash dividends paid on shares of common stock held in the plan not designated for reinvestment or direct deposit will be paid by check to the participant. A check for the amount of funds payable will be sent through the mail so that it will reach the participant as close as possible to the dividend payment date.

Source and Price of Shares

To fulfill plan requirements, shares of our common stock will be, at our discretion, purchased either directly from us or in the open market by an independent agent. Shares purchased from us will be either authorized but unissued shares or shares held in our treasury. Purchases of our common stock under the plan are subject to such terms and conditions, including price and delivery, as the administrator may accept.

Purchases from CenterPoint Energy. The price of our common stock purchased from us will be the average of the high and low sales price of our common stock reported on the New York Stock Exchange Composite Tape as published in *The Wall Street Journal* for the trading day immediately preceding the relevant investment date, and the purchase will be made on the investment date. In the event no trading is reported for the relevant trading day, we may determine the purchase price on the basis of market quotations we deem appropriate. No brokerage fee will be charged on shares acquired directly from us.

Open Market Purchases and Sales. The price of our common stock purchased or sold in the open market will be the weighted average price of all shares purchased or sold, as the case may be, through the plan for the investment date. The weighted average price will be increased for brokerage fees and commissions, any related service charges and applicable taxes. As of the date of this prospectus, we do not expect the brokerage fees and commissions and related service charges to exceed \$0.10 per share.

An independent agent will make purchases and sales of our common stock in the open market beginning on the relevant investment date. These purchases and sales will be completed not later than five days from that date, except where completion at a later date is necessary or advisable under any applicable laws or regulations. Funds not invested within 30 days of receipt will be returned promptly to participants. The independent agent will make purchases and sales on any securities exchange where shares of our common stock are traded, in the over-the-counter market, or by negotiated transactions. These purchases and sales may be subject to such terms and conditions regarding price, delivery and other terms as agreed to by the administrator. The independent agent will have sole authority to direct the time or price at which shares may be purchased or sold, the markets on which the shares are to be purchased or sold, and the selection of the broker or dealer, other than the independent agent, through or from whom purchases or sales are to be made.

The independent agent may commingle each participant's funds with those of other participants for the purchases and sales of our common stock but will hold the funds at all times in a separate account apart from the administrator's funds.

The number of shares, including any fraction of a share rounded to four decimal places, of our common stock credited to a participant's account for a particular investment date will be determined by dividing the total amount of cash dividends and/or cash investments to be invested for the participant on the investment date by the relevant purchase price per share. Dividend and voting rights will commence upon settlement, whether shares are purchased from us or in the open market.

Safekeeping Service

Participants may use the plan's free safekeeping service at any time, provided that at least 10% of cash dividends paid on each share of our common stock held in the plan for a participant are reinvested in our common stock. Participants may deposit common stock into the plan by delivering the stock certificate(s) without endorsement to the administrator, along with written instructions designating the level of reinvestment of cash dividends on such shares of our common stock. **If the delivery is by mail, we recommend that participants use properly insured, registered mail with return receipt requested.** If a Participant does not designate the level of reinvestment of cash dividends on shares of our common stock deposited for safekeeping, then such participant shall be treated as having elected to have 100% of the cash dividends paid on such shares of our common stock reinvested in our common stock until the administrator receives written instructions from such participant designating the level of reinvestment. Shares deposited in the plan for safekeeping will be transferred into the name of the administrator or its nominee and credited to the participant's account under the plan. Thereafter, the shares will be treated in the same manner as shares purchased through the plan. Because shares deposited for safekeeping are treated in the same manner as shares purchased through the plan, they may be efficiently and economically transferred or sold if the participant desires. Once deposited into the plan, the shares of common stock will no longer be represented by stock certificates.

Sale of Common Stock

Participants may request the administrator to sell any number of whole shares held in their accounts at any time by written instructions (including via the administrator's website). As soon as practicable after receipt of the request, but within five business days, the administrator will instruct the independent agent to sell the shares. The independent agent will sell the shares as soon as practicable thereafter. Proceeds of the sale, less applicable brokerage fees and commissions and service charges and any applicable taxes, will be sent to the participant within five business days after the independent agent has completed the sale. The sales price will be determined in the same way as the price for shares of common stock purchased for participants in the open market. See "Source and Price of Shares" above. Alternatively, a participant may request its broker to electronically transfer the requested number of shares to their brokerage account for sale; any such request must be made through such participant's broker.

If the administrator receives a request to sell shares between the record date and the dividend payment date, the dividends on those shares will be reinvested on the investment date and newly purchased shares will be credited to the participant's account. If the request for sale does not include all shares in the participant's account, the number of shares requested will be sold within five days after receipt of the request and the proceeds from the sale will be sent to the participant. Newly purchased shares will be retained in the participant's account after the investment date. If the request for sale covers all shares in the participant's account, the sale instructions shall be processed as described above with respect to the participant's current whole shares held under the plan and the sale instructions with respect to shares purchased on such dividend payment date shall be processed promptly following such dividend payment date. The shares purchased on such dividend payment date will be sold within five days after the dividend payment date and the proceeds from the sale will be sent to the participant.

Withdrawal, Transfers, and Gifts of Common Stock

Withdrawals and Transfers Outside the Plan. A participant may withdraw shares of common stock credited to the participant's plan account by so instructing the administrator in writing if the participant will not be the record holder after withdrawal, by delivering written instructions, specifying the recipient's name, address, Social Security number and telephone number and a stock assignment or stock power, with the participant's signature guaranteed by a member of the Medallion Signature Guarantee program (a participating broker, bank, savings and loan association, etc.). A book statement representing whole shares withdrawn from the plan will be sent to the participant or designated recipient within two business days of processing of a properly documented

[Table of Contents](#)

request. Withdrawal of shares of common stock does not affect reinvestment of cash dividends on the shares withdrawn unless:

- the participant is no longer the record holder of the shares,
- the participant specifically changes the level of reinvestment with respect to such shares, or
- the participant terminates participation in the plan.

If the administrator receives a withdrawal request on or after the record date but before the dividend payment date, the dividends on those shares will be reinvested on the investment date and newly purchased shares will be credited to the participant's account. If the request for withdrawal does not include all shares in the participant's account, the number of shares requested will be withdrawn within two business days after receipt of the request and a book statement representing such designated account shares will be sent to the designated recipient. Newly purchased shares will be retained in the account of the participant making the request. If the request for withdrawal covers all shares in the participant's account, the withdrawal will be processed as described above with respect to the participant's current whole shares held under the plan and the withdrawal with respect to shares purchased on such dividend payment date shall be processed promptly following such dividend payment date. A book statement representing such withdrawn account shares in the participant's account will be sent to the designated recipient.

Gifts and Transfers of Common Stock Within the Plan. If a participant wishes to transfer all or a part of the participant's shares to a plan account for another person, whether by gift, private sale or otherwise, the participant may effect the transfer by giving transfer instructions, in writing, to the administrator. Transfers of less than all of the shares in the participant's account must be made in whole share amounts. Requests for such transfers are subject to the same requirements applicable to transfers of common stock generally, including the requirement of a stock power with a Medallion Signature Guarantee. The transfer will be effected as soon as practicable following the administrator's receipt of the required documentation. Gifts and transfers within the plan are subject to the same provisions as described above under "Withdrawals and Transfers Outside the Plan."

The administrator will continue to hold under the plan shares that are transferred within the plan. If the transferee is not already a participant, a plan account will be opened in the name of the transferee, and the transferee will promptly receive an enrollment form to elect any applicable services offered through the plan. Until the transferee elects otherwise or the transferor specifically requests that the new account be enrolled in one or more of the plan's options, the transferee's account will be treated as having elected (i) to have shares held in safekeeping under the plan and (ii) to have 100% of cash dividends paid on such shares reinvested in our common stock. If the transferee is already a participant, the shares transferred will be treated as other shares already in the account of the transferee with respect to plan options. As a result of the transfer, the transferor and the transferee will receive a statement confirming the transaction.

Reinvestment of Dividends on Remaining Shares

When a participant sells, withdraws or transfers a portion of the shares credited to the participant's account, the number of shares credited to the account is reduced. For a participant who is reinvesting cash dividends paid on only a portion of the shares credited to the participant's account, unless the participant gives specific instructions to the contrary, the reduction will first be made to shares for which partial reinvestment has been elected before it is made to shares for which full reinvestment has been elected.

Reports to Participants

The administrator will send each participant a quarterly statement of year-to-date activity showing the amount invested, purchase price, the number of shares purchased, deposited, sold, transferred and withdrawn,

[Table of Contents](#)

total shares accumulated and other information. The administrator will also send each participant a confirmation promptly after each cash investment, deposit, sale, withdrawal or transfer. Dividend reinvestments will not be individually confirmed, but rather will appear on the quarterly statement. Participants should retain statements and confirmations in their permanent records to establish the cost basis of shares purchased under the plan for income tax and other purposes.

The administrator will send each participant copies of all communications sent to holders of our common stock, including our annual report to shareholders, notice of our annual meeting, proxy statement and form of proxy, as well as federal tax reporting statements, if applicable, for reporting taxable income received from us.

The administrator will send all payments, notices, statements and reports to the participant's address on the administrator's records. It is therefore imperative that participants promptly notify the administrator of any change of address.

Shares of Common Stock Held in the Plan

The administrator will hold shares of our common stock purchased under, or deposited for safekeeping into, the plan and credited to participants' accounts in the administrator's name or the name of its nominee, as custodian. The number of shares, including fractional shares, held for each participant will be shown on each statement of account. **Certificates for shares, including fractional shares, of our common stock will not be issued under any circumstances.**

A participant may request that shares of our common stock held in its account be electronically transferred to its brokerage account by authorizing its broker to do so; any such request must be made through such participant's broker.

Shares held in a participant's account cannot be pledged or assigned. A participant who wishes to pledge or assign any shares must request that they be withdrawn from the plan and electronically issued to the participant along with a book statement representing such withdrawn shares.

Termination of Participation

A participant may terminate participation in the plan at any time by notifying the administrator in writing. As soon as practicable after receipt of notification, the administrator will provide to the participant:

- a book statement for all of the whole shares credited to the participant's account,
- any dividends and cash investments credited to the participant's account, and
- the cash value of any fraction of a share of our common stock credited to the participant's account.

A fraction of a share will be valued at the weighted average sales price (less brokerage fees and commissions, any related service charges and applicable taxes) of the aggregate number of shares sold in the open market for the investment date.

Costs

We will pay all administrative costs and expenses of the plan. **Participants will bear the cost of brokerage fees and commissions, related service charges and any applicable taxes incurred on all purchases and sales of our common stock in the open market.** As of the date of this prospectus, shares of stock are being purchased by an independent agent in the open market. We do not expect the brokerage fees and commissions and related service charges to exceed \$0.10 per share. There are no brokerage fees and

[Table of Contents](#)

commissions or related service charges for shares of common stock purchased directly from us. As of the date of this prospectus, services charges and fees under the plan include:

- Non-sufficient funds check return (\$35.00)
- Research (\$75.00 per item/hour)
- Funds wire transfer (\$30.00)
- Rush stock transfer (\$50.00)
- Processing fee for lost certificate (\$50.00)
- Surety bond premium on lost certificate (2%)

U.S. Federal Income Tax Consequences

The following is a summary of certain U.S. federal income tax consequences of participating in the plan. This summary is based on current law and may be affected by future legislation, income tax regulations, court decisions, Internal Revenue Service rulings and other administrative pronouncements. This discussion does not purport to deal with all aspects of taxation that may be relevant to a participant in light of the participant's circumstances, or if the participant is a type of investor who is subject to special treatment under U.S. federal income tax law (including, without limitation, insurance companies, partnerships, tax-exempt organizations, financial institutions, broker dealers, foreign corporations, other foreign entities, and persons who are not citizens or residents of the United States). This discussion is limited to taxpayers that will hold shares of our common stock as "capital assets" (generally, held for investment). Each participant should consult the participant's own tax advisor regarding the tax consequences (including the federal, state, local, foreign and other tax consequences) for the participant as a result of participating in the plan and of potential changes in applicable tax laws.

A participant will be required to include as income for U.S. federal income tax purposes the gross amount of all dividend payments on our common stock reinvested in our common stock as though the participant received the dividends in cash. In addition, a participant will be taxed on any brokerage commissions, fees or service charges that we pay for in connection with a purchase of our common stock for the participant under the plan.

To the extent distributions by us to our participants are treated as made from our current or accumulated earnings and profits, the distributions will be dividends taxable as ordinary income. The amount of any dividends in excess of earnings and profits will reduce a participant's tax basis in our common stock with respect to which the dividend was received, and, to the extent in excess of basis, result in capital gain.

As a general rule, a participant's tax basis for shares of our common stock (or any fraction of a share) acquired under the plan will be equal to the cash value of dividends attributable to the purchase of the shares on the applicable purchase date, as adjusted for brokerage commissions, fees and service charges, if any. A participant's tax basis in shares purchased with cash investments will be the cost of the shares plus any allocable brokerage commissions, fees and service charges, if any, on the applicable purchase date.

The participant will recognize capital gain or loss upon the sale of whole shares and upon the sale of any fractional share credited to the participant's account under the plan. The gain or loss will be equal to the difference between the amount received for shares (or a fractional share) and the participant's tax basis in such shares.

Unless a participant makes a contrary election, the administrator will report the tax basis of a participant's shares held in the plan using the first in, first out (FIFO) method. Under the FIFO method, any sale of shares held in the plan will be deemed to first come from a participant's oldest shares. Shares of our common stock purchased under the plan will have a holding period beginning on the day after the applicable purchase date.

[Table of Contents](#)

Under Internal Revenue Service backup withholding regulations, dividends reinvested under the plan may be subject to backup withholding tax (currently at 24%) unless the participant (i) is an exempt recipient or (ii) provides the administrator with the participant's taxpayer identification number (in the case of individual taxpayers the taxpayer identification number is their Social Security number) and certifies that it is not subject to backup withholding. Any amount so withheld will be treated as taxable income received by the participant and will be reflected on Form 1099-DIV mailed annually to all our investors, including plan participants.

The above summary is not a comprehensive discussion of all of the tax considerations that may be relevant to a participant in the plan. Therefore, each participant should consult the participant's own tax advisor regarding the tax consequences of participating in the plan.

Stock Splits, Stock Dividends, and Rights Offerings

Any shares or other noncash distributions, including stock splits, stock dividends, combinations, recapitalizations and similar events affecting our common stock, will be credited to a participant's account on a pro-rata basis. In the event of a rights offering, a participant will receive rights based upon the total number of whole shares of our common stock credited to the participant's account.

Voting of Proxies

Participants have the exclusive right to vote all whole shares credited to their plan accounts, either in person or by proxy, at any annual or special meeting of our shareholders. Fractions of shares cannot be voted. The administrator will forward to each participant all shareholder materials relating to shares credited to that participant's account.

Limitation of Liability

Neither we nor the administrator nor any independent agent will be liable for any act done in good faith or for any good faith omission to act, including, without limitation, any claim of liability arising from failure to terminate a participant's account upon the participant's death prior to receipt of notice in writing of such death, or with respect to the prices or times at which shares of our common stock are purchased or sold for participants, or fluctuations in the market value of our common stock.

Written Provisions of the Plan Controlling

With respect to any matter relating to the plan, including, without limitation, the timing and pricing of purchases and sales of our common stock for participants, the written provisions of the plan are controlling. Participants should not rely on any oral representations inconsistent with the written provisions of the plan. Neither we nor the administrator nor any independent agent will be liable for a participant's reliance on oral statements inconsistent with the written provisions of the plan.

Interpretation and Regulation of the Plan

Our officers are authorized to take actions to carry out the plan consistent with the plan's terms and conditions. We reserve the right to interpret and regulate the plan as we deem desirable or necessary in connection with the plan's operations.

Change or Termination of the Plan

We may suspend, modify or terminate the plan at any time, in whole, in part or in respect of participants in one or more jurisdictions, without the approval of participants. No such amendment will decrease the account of any participant or result in distribution to us of any amount credited to the account of any participant. Notice of

[Table of Contents](#)

suspension, modification or termination will be sent to all affected participants. Upon any whole or partial termination of the plan by us, each affected participant will receive:

- a book statement for all of the whole shares credited to the participant's account,
- any dividends and cash investments credited to the participant's account, and
- the cash value of any fraction of a share of our common stock credited to the participant's account.

A fraction of a share will be valued at the weighted average sales price (less brokerage fees and commissions, any related service charges and applicable taxes) of the aggregate number of shares sold in the open market for the investment date.

Termination of Participation by CenterPoint Energy

If a participant does not have at least one whole share of our common stock credited to the participant's account, or does not own any shares of our common stock for which cash dividends are designated for reinvestment under the plan, we shall terminate the participant's participation in the plan. Additionally, we may terminate, in our sole discretion, any participant's participation in the plan after written notice mailed in advance to the participant's address appearing on the records of the administrator. A participant whose participation has been terminated will receive:

- a book statement for all of the whole shares credited to the participant's account,
- any dividends and cash investments credited to the participant's account, and
- the cash value of any fraction of a share of our common stock credited to the participant's account.

A fraction of a share will be valued at the weighted average sales price (less brokerage fees and commissions, any related service charges and applicable taxes) of the aggregate number of shares sold in the open market for the investment date.

PLAN OF DISTRIBUTION

We are offering shares of our common stock by this prospectus pursuant to the plan. The terms of the plan provide for the purchase of shares of our common stock directly from us or, at our option, by an independent agent in the open market. As of the date of this prospectus, shares of our common stock purchased for participants under the plan are being purchased by an independent agent in the open market. The plan provides that we may not change our determination regarding the source of purchases of shares more than once in any three-month period. We expect our primary consideration in determining the source of shares to be used for purchases under the plan will be our need to increase equity capital. If we do not need to raise funds externally or if financing needs are satisfied using non-equity sources of funds to maintain our targeted capital structure, shares of our common stock purchased for participants will be purchased in the open market, subject to the limitation on changing the source of shares of our common stock.

We will pay all administrative costs and expenses associated with the plan. Participants will bear the cost of brokerage commissions and fees, related service charges and any applicable taxes incurred on all purchases and sales made in the open market. These costs will be included as adjustments to purchase and sales prices. There are no brokerage fees and commissions or related service charges for shares of common stock purchased directly from us.

Pursuant to such statutory and Bylaw provisions, the Company has purchased insurance against certain costs of indemnification that may be incurred by it and by its officers and directors.

Additionally, Article IX of the Company’s Restated Articles of Incorporation provides that no director of the Company is liable to the Company or its shareholders for monetary damages for any act or omission in the director’s capacity as director, except as required by law as in effect from time to time. Currently, Section 7.001 of the TBOC requires that liability be imposed for the following actions: (i) any breach of such director’s duty of loyalty to the Company or its shareholders, (ii) any act or omission not in good faith that constitutes a breach of duty of such director to the Company or that involves intentional misconduct or a knowing violation of law, (iii) a transaction from which such director received an improper benefit, regardless of whether or not the benefit resulted from an action taken within the scope of the director’s duties or (iv) an act or omission for which the liability of a director is expressly provided for by statute.

Article IX also provides that any subsequent amendments to Texas statutes that further limit the liability of directors will inure to the benefit of the directors, without any further action by shareholders. Any repeal or modification of Article IX shall not adversely affect any right of protection of a director of the Company existing at the time of the repeal or modification.

See “Item 17. Undertakings” for a description of the Commission’s position regarding such indemnification provisions.

Item 17. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) of the Securities Act of 1933 if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) of this section do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

[Table of Contents](#)

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

Ladies and Gentlemen:

As set forth in the Registration Statement on Form S-3 (the "Registration Statement") to be filed on the date hereof by CenterPoint Energy, Inc., a Texas corporation (the "Company"), with the Securities and Exchange Commission (the "Commission") under the Securities Act of 1933, as amended (the "Act"), relating to the sale from time to time pursuant to Rule 415 under the Act of up to 3,000,000 shares (the "Shares") of common stock, par value \$0.01 per share, of the Company ("Common Stock") under the Company's Fourth Amended and Restated Investor's Choice Plan (the "Plan"), certain legal matters in connection with the Shares are being passed upon for you by us. At your request, this opinion is being furnished to you for filing as Exhibit 5.1 to the Registration Statement.

In our capacity as your counsel in the connection referred to above, we have examined originals, or copies certified or otherwise identified, of the Company's Restated Articles of Incorporation and Third Amended and Restated Bylaws, each as amended to date, and the Plan, as amended to date, records of the Company, including certain resolutions of the Board of Directors of the Company, as furnished to us by the Company, certificates of governmental and public officials and of representatives of the Company, statutes and other instruments and documents as we have deemed necessary or advisable for purposes of the opinions hereinafter expressed.

In giving the opinions set forth below, we have relied, to the extent we deemed appropriate, without independent investigation or verification, upon certificates, statements, memoranda or other representations of officers, directors or other authorized representatives of the Company and of governmental and public officials with respect to the accuracy of the factual matters contained in or covered by such certificates, statements, memoranda or representations. In giving the opinions set forth below, we have assumed that all signatures on all documents examined by us are genuine, all documents submitted to us as originals are accurate and complete, all documents submitted to us as copies are true, correct and complete copies of the originals thereof, and all information submitted to us was accurate and complete.

On the basis of the foregoing, and subject to the assumptions, limitations and qualifications set forth herein, we are of the opinion that:

1. The Company is a corporation duly incorporated and validly existing in good standing under the laws of the State of Texas.
2. With respect to Shares that are to be issued by the Company pursuant to the Plan as newly issued shares or to be sold by the Company pursuant to the Plan as treasury shares, such Shares have been duly authorized by all requisite corporate action on the part of the

Company, and when so issued or sold from time to time in accordance with the terms and conditions of the Plan, including the receipt of any consideration provided for therein, assuming such consideration is not less than the par value of the Common Stock, such Shares will be validly issued, fully paid and nonassessable.

3. With respect to Shares that include shares of Common Stock which are issued and outstanding on the date hereof and are to be purchased in the open market on behalf of the Plan, such Shares have been duly authorized by all requisite corporate action on the part of the Company and will be validly issued, fully paid and nonassessable.

For the purposes of determining that previously issued shares of Common Stock will be duly authorized, validly issued, fully paid and nonassessable as contemplated by paragraph 3 above, (i) we have relied upon certificates of officers of the Company as to records of original issuances of Common Stock and as to the number of issued shares of Common Stock, (ii) as to the consideration received for such shares of Common Stock, we have relied on certificates of officers of the Company as to the Company's actual receipt of the consideration provided for in the resolutions authorizing the issuance of such shares of Common Stock, and (iii) we have assumed that such previously issued shares of Common Stock that were issued pursuant to stock benefit plans or programs of the Company or upon conversion, exchange or exercise of any other security of the Company, or in certain circumstances a subsidiary of the Company, have been delivered either in accordance with the applicable stock benefit plan or program approved by the Board of Directors of the Company or upon conversion, exchange or exercise of any other security of the Company, or in certain circumstances a subsidiary of the Company, in accordance with the terms of such security or the instrument governing such security, providing for such conversion, exchange or exercise as approved by the Board of Directors of the Company.

The opinions set forth above in this letter are limited in all respects to matters of the laws of the State of Texas and applicable federal law. We hereby consent to the filing of this opinion of counsel as Exhibit 5.1 to the Registration Statement. We also consent to the references to our Firm under the heading "Legal Matters" in the prospectus forming a part of the Registration Statement. In giving this consent, we do not hereby admit that we are in the category of persons whose consent is required under Section 7 of the Act or the rules and regulations of the Commission thereunder.

Very truly yours,

/s/ BAKER BOTTS L.L.P.
